Foreword

This handy booklet contains a whole range of information on West Iceland, aimed at making your journey an easier and a more memorable experience. We hope you will find it useful. We also recommend our website, www.west.is, where you can find updated information about upcoming events in the area and much, much more.

We wish you an enjoyable stay in West Iceland!

Weather and road conditions

Before setting off on your journey, it is advisable to get informed about the weather and road conditions. The weather can create danger on the road, especially in winter. Please go to www.vedur.is for the weather forecasts and www.road.is to find out about road conditions so that you can plan your trip accordingly.

Safetravel is an information source for travelling safely in Iceland. Go to www.safetravel.is and find out about the latest dangers and alerts and get tips on safe travel. You can also register your trip with Safetravel for a safer adventure.

The number in Iceland to call in case of an emergency is **112**.

Close to the capital yet away from the bustle, West Iceland is a world where culture, nature and history complement each other, creating a unique experience.

This vast area consists of fjords, valleys, craters, glaciers, volcanoes and the much-loved phenomenon of wide open spaces. Travel through historical Borgarfjörður, home to most of the Icelandic sagas and their heroes, or venture close to the centre of the earth at Snæfellsjökull Glacier on the Snæfellsnes peninsula before crossing over to Dalir, cradle of the great explorers, Eirik the Red and his son, Leif the Lucky, the first European to set foot in America.

The short distances between popular destinations make it possible to enjoy the area at a comfortable pace all year round, so remember to slow down in West Iceland.

There is no time to cry boredom in West Iceland. The landscape and nature provide the perfect playground for visitors to the area.

Many hiking trails and walking paths criss-cross the area, leading from one highlight to the next.

Golf courses can be found all over West Iceland, each with its own level of difficulty, character and charm. But for those who prefer higher plains, glacier trips are offered up Langjökull and Snæfellsjökull at certain times of the year.

Boat trips are offered from various villages in the area, offering a chance to do some sea-angling and whale spotting or bird watching. The Icelandic horse can cross the mountains, rivers and valleys of West Iceland with ease, making horse riding a pleasurable experience.

Fresh water lakes and rivers are dotted all over the west, a good catch for the enthusiastic fisherman.

A good end (or start) to the day involves a long soak in the hot tub at one of the many heated swimming baths in West Iceland.

I-Hvalfjörður

A beautiful alternative to the tunnel route

Hvalfjörður covers a vast area which stretches from Hvalfjörður on the east side over to Skorradalur on the north, Borgarfjörður on the west side and Akranes on the south.

The landscape consists of a wonderful mixture of grassy plains, steep slopes of magnificent mountains as well as a coastline abundant with scattered bays and diverse eco-systems.

The nature of Hvalfjörður is very beautiful and there are endless possibilities to enjoy the great outdoors so close to the capital city.

This area has a rich history dating back to the time of the Settlement.

The area boasts many beautiful beaches as well as a richly diverse coastline.

In Hvalfjörður there are two of the most popular hiking trails in Iceland. One leads to the spectacular Glymur Waterfall, about 200 meters high. This hike takes about 2 hours. The other is the Síldarmannagötur which takes about 3 – 4 hours.

2-Akranes

Akranes is situated on a peninsula just north of Reykjavík in only 30 min driving distance from the capital. It's the largest town in West Iceland with a population of about 6,700 people. Akranes is sheltered by the mountain Akrafjall, the town's pride and one of the best known mountains on the south-west corner of Iceland.

The most picturesque location in Akranes is, without a doubt, by the two lighthouses on the outmost point of the peninsula. The point, which goes by the name of "Breið" in Icelandic, is a perfect outdoor area where you can enjoy the coastline, the rich birdlife, the surf and the magnificent view across

the bay over to Reykjavík and the Snæfellsnes peninsula. The bigger lighthouse is open all year round.

After a good trek up and down Akrafjall mountain, it would be ideal to head down to the beach at Langisandur. This beach is of particular pride for the locals, situated right in the heart of Akranes. It's refreshing to walk along the long coastline and maybe even dive into the exhilarating, but certainly cold, sea and then warm up in the swimming pool at Jaðarsbakkar sport centre.

Akranes also offers various options for all sorts of different activities, for example hiking, birdwatching, sea angling or cultural experience at Akranes museum center. Birdlife is rich in the area along the coastline as well as near Akrafjall mountain.

3-Borgarnes Town and Borgarfjörður Region

Borgarnes and the surrounding Borgarfjörður region can be regarded as the setting for most of the Icelandic sagas. The area's landscape, nature and culture reflect this heritage and bring history to life.

Borgarnes town is the centre of communications, trade and services in the area. Good sports facilities include a stunning swimming pool by the sea with hot tubs, water slide, sauna and sports stadium.

A visit to the Settlement Centre and the Borgarfjörður Museum is essential when beginning your visit to get to know the sagas of the area. In the old part of Borgarnes you will find wonderful restored houses by the harbour, the oldest houses in Borgarnes. Just outside of town, at Hamar, there is an 18-hole golf course and a new equestrian hall, Faxaborg. Nearby is a beautiful country park called Einkunnir.

The area is characterized by forests and rocky islands, or bluffs, that rise from the vast, flat wetlands, as well as lava fields covered with moss and boundless stretches of Betula bushes, the largest of its kind in Iceland. Various trout and salmon rivers and many beautiful waterfalls are framed by unique nature. In the peaceful highlands of Borgarfjörður you can find Langjökull Glacier, Kaldidalur and Arnarvatnsheiði, the most hidden treasure of the area, where you can discover many lakes full of trout.

The Agricultural Museum of Iceland is located at Hvanneyri, 12 km from Borgarnes. It presents and explores the heritage and history of Icelandic agriculture with emphasis on the 19th and the 20th centuries. The Agricultural University of Iceland has its headquarters at Hvanneyri. The charming Ullarselið shop offers a variety of high quality Icelandic handicraft made from wool and other natural materials.

Skorradalur, together with the lake Skorradalsvatn, is an agricultural valley and a well-known summer cottage resort in Iceland. It also forms a base for the Iceland Forest Service.

Eldborg is a beautifully formed volcanic spatter cone north of Borgarnes. It's rather easy to hike there, departing from the farm Snorrastaðir.

Just north of Bifröst in the valley Norðurárdalur, there are two small craters called Grábrók and Grábrókarfell. Lava from the craters covers much of Norðurárdalur.

Reykholt is an historic site where the great writer Snorri Sturluson lived and died in 1241. The academic institution Snorrastofa is situated there, dedicated to the memory of Snorri.

Deildartunguhver is Europe's most powerful hot spring. It provides 180 l/sec of 100°C hot water. Most of the water used for central heating in the towns of Borgarnes and Akranes comes from Deildartunguhver. This year Krauma - geothermal baths will be opened here.

Húsafell is a pearl of nature by the glaciers Einíksjökull and Langjökull. There is a golf course and swimming pool as well as other services for tourists. On the way from Borgarnes to Húsafell you can visit the beautiful waterfalls Barnafoss and Hraunfossar. Nearby Húsafell you can make an excursion to the huge lava cave Viðgelmir and to a man-made ice cave, located in Langjökull, one of the largest glaciers in Europe.

We welcome you to Borgarnes and Borgarfjörður.

4-Snæfellsbær

The varied natural beauty of Snæfellsbær is what sets it apart from other areas.

The mountains are close to the coastline, which is full of different natural formations. The Snæfellsnes mountain range is a majestic sight, ending with Snæfellsjökull Glacier as its highest peak.

From a geological point of view, the area is unique because of its diversity. For example, it is possible to find hot and cold mineral springs with great healing properties, vast lava fields, each with its own character; consisting of amazing vegetation and wonderful formations. Cultivated fields and meadows, different kinds of craters, magnificent mountains, many wonderful caves, and an amazingly beautiful coastline containing basalt columns and sandy beaches, are all found in the area.

Here one can find waterfalls of every kind, fountain springs, wells and streams as well as lakes and rivers teeming with salmon and trout. There are seal colonies on the coast and birdlife in the area is abundant. The area

famous for its rich fishing grounds and it is a wonderful playground for seals and whales.

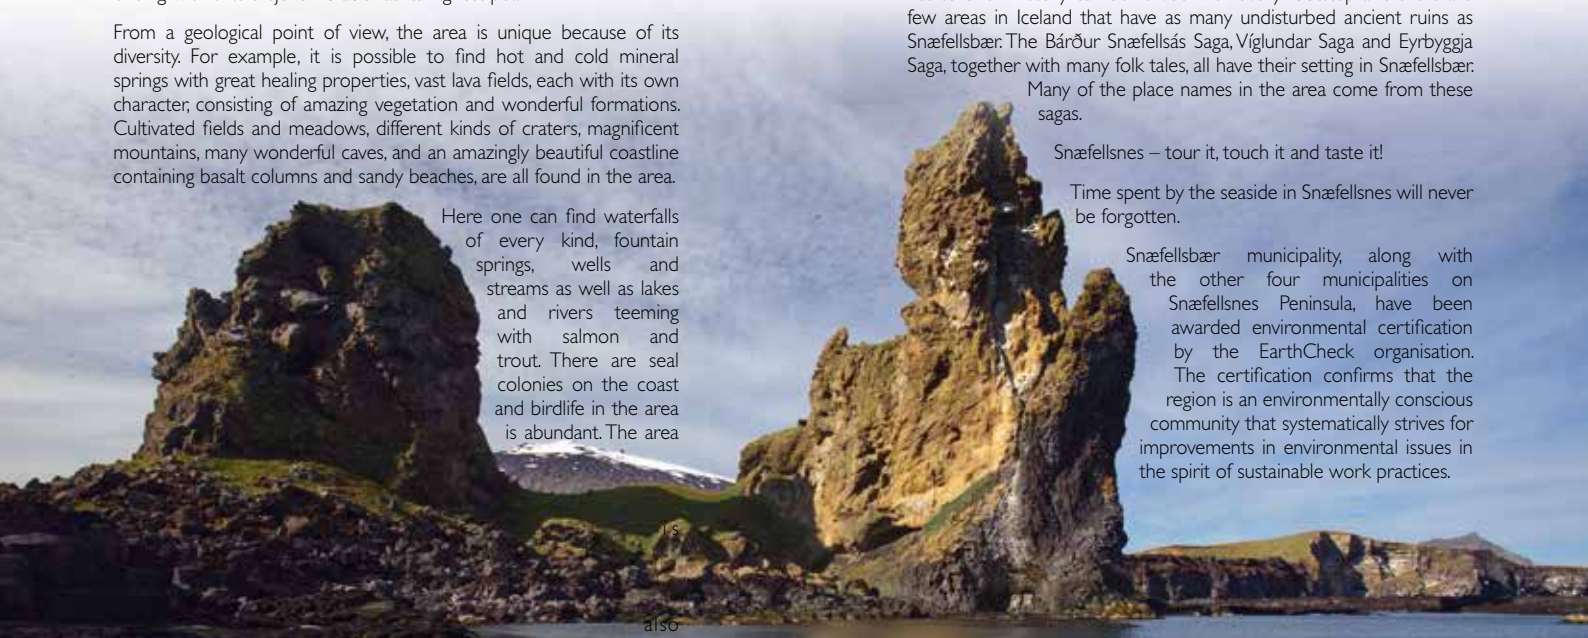

Throughout the area one can find walking trails and old paths or roads that help to make it easier for tourists to discover what Snæfellsbær has to offer: History can be relived with every footstep and there are few areas in Iceland that have as many undisturbed ancient ruins as Snæfellsbær: The Bárður Snæfellsás Saga, Víglundar Saga and Eyrbyggja Saga, together with many folk tales, all have their setting in Snæfellsbær.

Many of the place names in the area come from these sagas.

Snæfellsnes – tour it, touch it and taste it!

Time spent by the seaside in Snæfellsnes will never be forgotten.

Snæfellsbær municipality, along with the other four municipalities on Snæfellsnes Peninsula, have been awarded environmental certification by the EarthCheck organisation. The certification confirms that the region is an environmentally conscious community that systematically strives for improvements in environmental issues in the spirit of sustainable work practices.

5-Grundarfjörður

Grundarfjörður is centrally located on the north coast of the Snæfellsnes peninsula and lies deep in a beautiful fjord of the same name.

It is surrounded by a magnificent mountain range with the beautiful Mt. Kirkjufell standing out as a majestic landmark. The town boasts a modern outlook, but retains its traditional fishing village charm.

Recently the area was awarded the international Earth Check certification for sustainable development, along with other municipalities on the peninsula.

Grundarfjörður, with its abundance of sea life, has become a kind of sanctuary for the white-tailed eagle. This magnificent bird is the largest predatory bird in Iceland and is protected by nature conservation laws. Lately, orca whales have also discovered the feast of food in Grundarfjörður and have followed the herring into the fjord in great numbers, especially in winter time. The feast of food is extended to tourists and visitors by way of our excellent local restaurants.

Grundarfjörður offers a wide range of activities for its visitors, both in the town and the surrounding area, such as hiking, boat trips, horse riding, fishing and bird watching. Other more exotic pastimes include beachcombing, scree running, wave watching and counting waterfalls. We also have an excellent golf course, a good selection of dining and accommodation, friendly locals and, last but not least, breathtaking nature at your doorstep. What more could you want?

We look forward to seeing you.

EDEN Stykkishólmur

The town of Stykkishólmur was awarded the “European Destination of Excellence” for 2011. The award is given for the preservation and restoration of cultural buildings and the ambitious policy of sustainable tourism development.

6-Stykkishólmur

Stykkishólmur has become one of the most popular destinations in Iceland in recent years. The inhabitants are very proud of their environment and history and have preserved it so that generations to come can have enjoyment from it as well.

In the past few decades Stykkishólmur has changed drastically from being a typical Icelandic fishing village, basing its livelihood on scallops, into an historical and environmentally conscious town proud of its heritage.

The conservation of cultural heritage and history, as well as its environmental awareness, play a big role in increasing the number of visitors. This is reflected in the town centre with its collection of old, preserved houses, which has garnered awards for the town, such as the European Destination of Excellence award in 2011. The award is given for the preservation and restoration of cultural buildings and the ambitious policy of sustainable tourism development. The town received the award for the systematic development of the old houses in the town which have been restored to life and have thus gained a new role in tourism, with the emphasis placed on sustainability and environmentalism.

Other places of interest include the swimming pool with its Fresenius certified water; claimed by locals to have regenerative powers, hiking trails, one of the few convents in Iceland and a popular golf course by the seashore, to name a few.

A possible visit to a unique volcano museum and an adventure boat tour around the uncountable islands of Breiðafjörður are things you simply must do. After the tour one can visit a local restaurant, which serves local mussels and local fish on plates manufactured in the local pottery.

No one will be disappointed in Stykkishólmur.

7-Dalir – Búðardalur

Dalir is a family-friendly place to visit, combining historical and cultural attractions with an enchanting world of wildlife and nature. It is the ideal place to spend a few days away from the hustle and bustle of city life, to relax, be outdoors, discover and learn.

Few parts of Iceland are as rich in history as Dalir where records go back virtually unbroken to the Settlement in the 9th and 10th centuries. In fact, Dalir deserves to be called a stepping-stone into the New World. Ancient Icelandic records tell how Eirík the Red, who in 985-6 AD pioneered the settlement of Greenland, lived in Haukadalur valley at a place called Eiríksstaðir. His son, Leif the Lucky, was born there and a reconstruction of his birthplace has been built there, based on the ruins of Eirík's own farmhouse.

The nature here is beautiful and is great for hiking and horse riding trips. Other activities include bird and seal watching, and swimming in geothermally heated outdoor pools. Visitors are also invited to explore the Dalir Heritage Museum as well as local farms, such as Erpsstaðir, where you can taste and buy local products and get to know the way of life in Dalir.

Inexpensive trout fishing is available in Lake Haukadalsvatn and the lakes of Ljárskógur and Sólheimar.

1 GLYMUR WATERFALL

The highest waterfall in Iceland, about 196m. The word "glymur" means to boom or rumble and this reflects the sounds of this spectacular waterfall as it cascades into the deep, beautiful ravine high in the mountains of Hvalfjörður. The hike to the waterfall takes about 2 hours and is not an easy one, so be prepared.

1 LANGISANDUR

Iceland's very own sandy beach where life is relaxed and fun. Spend a day or two on this beach to catch a tan, build sandcastles or collect shells and coloured stones. Langisandur beach is very close to town and is the perfect spot for family outings in Akranes.

2 BREIÐ AKRANES LIGHTHOUSE

Breið is the west part of Akranes and is the location of the fishing history of the town. There are two lighthouses, the bigger one is open to the public.

3 AKRAFJALL

Akrafjall mountain at Akranes is relatively easy to climb and is therefore suitable for family hikes. There is no need to be experienced or to have expensive gear, but a good amount of stamina and sensible clothing is necessary to enjoy the hike.

4 HAFNARFJALL

Hafnarfjall mountain is 844 meters high just outside Borgarnes and is easily accessible from the main road. There are several hiking trails in the Hafnarfjall area and those who dare to go all the way to the top will enjoy a phenomenal view in all directions.

5 TRÖLLAFOSSAR

Troll Falls is a beautiful cascade of small waterfalls in Grimsá, one of Iceland's premier salmon rivers. In July and August the salmon is often seen jumping.

6 DEILDARTUNGUHVER

This bubbling hot spring is situated on a beautiful farm in Borgarfjörður. It is the largest geothermal spring in Europe and provides two towns plus a large rural area with hot water. The water is over 100°C and bubbles out of an algae-covered rocky outcrop creating a steamy source of power.

6 HRAUNFOSSAR

Hraunfossar (Lava Falls). Clear, cold springs of subterranean water seep through the lava and cascade down into the magnificent milky-blue waters of the Hvítá river. Barnafoss (Children's Falls) is a short walk further up the river where a bridge enables you to witness the power of this mighty river.

7 VÍÐGELMIR

Víðgelmir cave is in a lava field called Hallmundarhraun on the land of Fljótstunga, close to Hraunfossar and Húsafell. It is located in one of the most extensive lava areas in Iceland, which is also home to most of the largest lava caves in the country, including one of the grandest, and reportedly most remarkable, lava caves in the world. The caves were a hideaway for outlaws and sheep rustlers of the past. Guided cave tours are offered all year round by The Cave.

8 GRÁBRÓK

Grábrók is the largest of three craters in a short volcanic fissure in Borgarfjörður on Route 1. The panoramic view from the top of Grábrók over Borgarfjörður is spectacular. A marked trail leads to the top.

9 GLANNI WATERFALL

Near Paradise Hollow, a beautiful small oasis, the Glanni waterfall is an impressive feature of the Norðurá river in Borgarfjörður. A perfect stop for picnics. Close to Route 1.

10 ELDBORG CRATER

A beautifully-formed crater rising 60m above the surrounding lava. Its last eruption was about 5000-6000 years ago. It is easiest to approach Eldborg from Snorrastadir on its southern side, walking 2,5 km through the shrub-covered lava field. It is possible to walk all the way around the crater as well as up it.

11 GERÐUBERG BASALT COLUMNS

This is a long wall of basalt columns, forming hexagonal patterns in the hillside. Some of the columns are as high as 3 metres. Although it can be seen from Route 54, it is much more impressive close up. A 5-minute detour from the route to Snæfellsnes.

12 ARNARSTAPI

This ancient fishing station is now a holiday area and with good reason. Its beautiful setting at the foot of the glacier as well as the magnificent cliffside walking trails are perfect for spending time here. Arnarstapi is known for its stunning basalt cliffs, ravines and grottos as well as unusual rock formations in the ocean, all teeming with a variety of seabirds.

13 SNÆFELLSJÖKULL GLACIER

This magnificent glacier dominates the skyline of the Peninsula. It makes up the major part of the Snæfellsnes National Park and is undisputedly the main attraction in the area. Rising 1446 m above sea level, this snow-capped mountain is one of the seven energy centres of the Earth and has mystical properties akin to those at Mt. Shasta and the Giza Pyramid. Excursions on the glacier are offered by Snæfellsjökull Glacier Tours, Summit Adventure Guides and Go West.

14 VATNSHELLIR

Vatnshellir Cave is an 8000-year-old lava tube that reaches over 200 meters and goes 35 meters below the surface. It is located in the Snæfellsjökull National Park, about 10 minutes' drive from Hellnar. Guided tours are offered all year round.

15 THE SNÆFELLSJÖKULL NATIONAL PARK

The National Park in Snæfellsnes covers an area of 170m² and is the only coastal park in Iceland. It consists of varied landscape including moss-covered lava fields, pebbled beaches and impressive rugged cliffs.

The Park's main feature is the magnificent Snæfellsjökull glacier which dominates the area, but there are several smaller volcanoes dotted around the lowlands of the Park as well, namely Saxhóll, Purkhólar and Hólahólar. Sheltered coves such as Skarðsvík, Djúpalónssandur and Dritvík create beautiful breaks in the cliff faces and are popular tourist sites. Vatnshellir cave is enchanting, but only guided visits are permissible. The Arctic fox, mink and field mice are free to roam the area and can be seen at all times of the year while killer whales, minke whales and porpoises inhabit the surrounding ocean. Birdlife is rich and varied around the many cliffs and rock formations on the coast. Here guillemot, razorbill, fulmar, kittiwake and shag can be seen quite easily. The Park is covered in thriving indigenous plant life including heather; flowering plants in sheltered hollows and moss and seaweed.

There are marked walking trails all over the Park and guests are invited to explore them. The Park has a strong conservation policy to protect the ecology and remarkable geological features of the area. Please observe these basic National Park rules of not disturbing the geological formations and wildlife, not lighting fires and taking your litter with you. And please take your time to enjoy this natural wonderland.

16 KIRKJUFELL

Grundarfjörður's beautiful landmark is the most photographed mountain in Iceland. Its isolated position jutting out into the sea makes it a focal point for tourists and seamen alike. Surrounded by beaches, Kirkjufell has a lovely walking trail around it as well as a more challenging climb up to the top where bird and fish fossils can be found (guide is recommended).

17 GUÐRÚNARLAUG

Guðrúnarlaug was mentioned in the Sturlunga Saga and it seems it was well-used. It has been rebuilt at Laugar where there is also a small changing room. The pool is open all year round and is free of charge.

18 DAGVERÐARNES

A beautiful spot where Auður the Deep-minded stopped to rest one morning while searching for a place to settle. The name means "Breakfast Ness" for this reason. A church, dated 1934, stands at Dagverðarnes.

19 KLOFNINGUR

A deep cleft in the Klofningur mountain near Búðardalur through which Route 590 passes. At the viewing dial, there is a breathtaking panoramic view of Breiðafjörður and its many islands, Snæfellsnes and Barðaströnd.

20 FLATEY

Flatey, meaning "flat island", is a charming island where time seems to have stood still for a while. It has the colourful history of being a fishing centre and ancient hub of commercial life, as well as housing the oldest library in Iceland. Today this pretty island has a small collection of old, restored houses, shops and warehouse buildings which are mostly used for tourism. A perfect stopover to the West Fjords.

The western part of Snæfellsnes does not get much mention in ancient manuscripts, but there are some accounts of stockfish being transported through the area. The best known Saga from the area is Bárðar Saga Snæfellsáss, but is considered rather too fanciful to count as a reliable historical source. Many of the place names in the area relate to the story.

Wherever natural conditions permitted there were fishing outfits, where hundreds of fishermen, who frequented the rich fishing grounds near the coast, used open rowboats. The most renowned among them is Dritvík, where the fisheries probably started in the 16th century, and according to the annals between 300 and 400 fishermen, using 60-80 boats, spent the time during the fishing seasons. Ruins of their abodes and a lava maze on the hill south of the cove are protected. Near Gufuskálar, there are remains of many stonewalled shelters, believed to have been built some 500-700 years ago to store fish.

The Nature Reserve Búðir was a trading port as well as a fishing station in the early centuries after settlement onwards. There are ruins of various fishing-related structures, and old merchant buildings. Arnarstapi was also an important trading port, and was a large community by Icelandic standards, having circa 150 inhabitants at the beginning of the 18th century. Hellnar was, for centuries, home to one of the biggest fishing stations in Snæfellsnes. At the beginning of the 18th century, approximately 200 people lived at Hellnar in turf houses and fishermen's huts, and the site is rich in archaeological remains.
